RESOLUTION 93-10-F
POLICY CHANGED FOR KEYS
Introduced: November 9, 1993

- PURPOSE: For the Residence Life to change its current policy for a resident locked out of their room. **
- WHEREAS: The present policy is an inconvenience to those residents who have locked themselves out of their room with no access to money, and
- WHEREAS: The locked out resident is forced to harass other residents to obtain monies required for a key deposit, and
- WHEREAS: The policy also states that the residents may only recollect their ten dollars on a certain day and time, not simply when the key is returned, and
- WHEREAS: This change in policy will prevent further inconveniences to other friends and residents who will be asked for the ten dollars to help the locked out resident, and
- WHEREAS: This change in policy would be more convenient for a locked out resident.
- THEREFORE: Be it resolved that we, the members of the Student Government Association do request that the current policy be changed to an alternative policy such that after a background check to verify who the locked out resident is, the locked out resident should be let into their room for a one dollar non-refundable charge payable when the resident is given access to their room, and if the resident has lost their key indefinitely, then the resident should pay a ten dollar non-refundable charge also payable when the resident is given access to their room.
